please do not report the images to the
Image Problem Mailbox.**

What is claimed is:

1. A mini-camera with an adjustable structure comprising:
 - a camera body having a camera lens provided with a positioning hole;
 - 5 a camera body support with a fixing hole that corresponds to the positioning hole;
 - a limiting element disposed between the fixing hole and the positioning hole, wherein the limiting element provides the camera body with enough friction for adjusting and positioning
- 10 a viewing angle relative to the support.
2. The mini-camera with an adjustable structure according to claim 1, wherein the camera body has a receiving area bordered by a frame disposed around the positioning hole of the camera body, for disposing the limiting element.
- 15 3. The mini-camera with the adjustable structure of claim 2, wherein a length of the limiting element is greater than a depth of the receiving area.
